Spellcasting

As a student of arcane magic, you have learned to cast spells. See chapter 7 for the rules on spellcasting. The information below details how you use those rules with Wizard spells, which appear in the Wizard spell list later in the class's description.

Cantrips.

You know three Wizard cantrips of your choice. Light, Mage Hand, and Ray of Frost are recommended. Whenever you finish a Long Rest, you can replace one of your cantrips from this feature with another Wizard cantrip of your choice. When you reach Wizard levels 4 and 10, you learn another Wizard cantrip of your choice, as shown in the Cantrips column of the Wizard Features table.

Spellbook.

Your wizardly apprenticeship culminated in the creation of a unique book: your spellbook. It is a Tiny object that weighs 3 pounds, contains 100 pages, and can be read only by you or someone casting Identify. You determine the book's appearance and materials, such as a gilt-edged tome or a collection of vellum bound with twine. The book contains the level 1+ spells you know. It starts with six level 1 Wizard spells of your choice. Detect Magic , Feather Fall , Mage Armor , Magic Missile , Sleep , and Thunderwave are recommended. Whenever you gain a Wizard level after 1, add two Wizard spells of your choice to your spellbook. Each of these spells must be of a level for which you have spell slots, as shown in the Wizard Features table. The spells are the culmination of arcane research you do regularly.

Spell Slots.

The Wizard Features table shows how many spell slots you have to cast your level 1+ spells. You regain all expended slots when you finish a Long Rest. Prepared Spells of Level 1+. You prepare the list of level 1+ spells that are available for you to cast with this feature. To do so, choose four spells from your spellbook. The chosen spells must be of a level for which you have spell slots. The number of spells on your list increases as you gain Wizard levels, as shown in the Prepared Spells column of the Wizard Features table. Whenever that number increases, choose additional Wizard spells until the number of spells on your list matches the number in the table. The chosen spells must be of a level for which you have spell slots. For example, if you're a level 3 Wizard, your list of prepared spells can include six spells of levels 1 and 2 in any combination, chosen from your spellbook. If another Wizard feature gives you spells that you always have prepared, those spells don't count against the number of spells you can prepare with this feature, but those spells otherwise count as Wizard spells for you.

Changing Your Prepared Spells.

Whenever you finish a Long Rest, you can change your list of prepared spells, replacing any of the spells there with spells from your spellbook.

Spellcasting Ability.

Intelligence is your spellcasting ability for your Wizard spells.

Spellcasting Focus.

You can use an Arcane Focus or your spellbook as a Spellcasting Focus for your Wizard spells. Expanding and Replacing a Spellbook The spells you add to your spellbook as you gain levels reflect your ongoing magical research, but you might find other spells during your adventures that you can add to the book. You could discover a Wizard spell on a Spell Scroll, for example, and then copy it into your spellbook. Copying a Spell into the Book. When you find a level 1+ Wizard spell, you can copy it into your spellbook if it's of a level you can prepare and if you have time to copy it. For each level of the spell, the transcription takes 2 hours and costs 50GP. Afterward you can prepare the spell like the other spells in your spellbook.

Copying the Book.

You can copy a spell from your spellbook into another book. This is like copying a new spell into your spellbook but faster, since you already know how to cast the spell. You need spend only 1 hour and 10 GP for each level of the copied spell. If you lose your spellbook, you can use the same procedure to transcribe the Wizard spells that you have prepared into a new spellbook. Filling out the remainder of the new book requires you to find new spells to do so. For this reason, many wizards keep a backup spellbook.

Ritual Adept

You can cast any spell as a Ritual if that spell has the Ritual tag and the spell is in your spellbook. You needn't have the spell prepared, but you must read from the book to cast a spell in this way.

Arcane Recovery

You can regain some of your magical energy by studying your spellbook. When you finish a Short Rest, you can choose expended spell slots to recover. The spell slots can have a combined level equal to no more than half your Wizard level (round up), and none of the slots can be level 6 or higher. For example, if you're a level 4 Wizard, you can recover up to two levels' worth of spell slots, regaining either one level 2 spell slot or two level 1 spell slots. Once you use this feature, you can't do so again until you finish a Long Rest.

SPECIES TRAITS ◆

Creature Type: Humanoid

Celestial Resistance:

You have Resistance to Necrotic damage and Radiant damage.

Darkvision:

You have Darkvision with a range of 60 feet.

Healing Hands:

As a Magic action, you touch a creature and roll a number of d4s equal to your Proficiency Bonus. The creature regains a number of Hit Points equal to the total rolled. Once you use this trait, you can't use it again until you finish a Long Rest.

Light Bearer:

You know the Light cantrip. Charisma is your spellcasting ability for it.

Celestial Revelation:

When you reach character level 3, you can transform as a Bonus Action using one of the options below (choose the option each time you transform). The transformation lasts for 1 minute or until you end it (no action required). Once you transform, you can't do so again until you finish a Long Rest. Once on each of your turns before the transformation ends, you can deal extra damage to one target when you deal damage to it with an attack or a spell. The extra damage equals your Proficiency Bonus, and the extra damage's type is either Necrotic for Necrotic Shroud or Radiant for Heavenly Wings and Inner Radiance. Here are the transformation options:

FEATS ◆

You can cast it once without a spell slot, and you regain the ability to cast it in that way when you finish a Long Rest. You can also cast the spell using any spell slots you have.

Spell Change: Whenever you gain a new level, you can replace one of the spells you chose for this feat with a different spell of the same level from the chosen spell list.

Repeatable: You can take this feat more than once, but you must choose a different spell list each time.

Until the spell ends, an alarm alerts you whenever a creature touches or enters the warded area. When you cast the spell, you can designate creatures that won't set off the alarm. You also choose whether the alarm is audible or mental:

Audible Alarm.

The alarm produces the sound of a handbell for 10 seconds within 60 feet of the warded area.

Mental Alarm.

You are alerted by a mental ping if you are within 1 mile of the warded area. This ping awakens you if you're asleep.

BLADE WARD ◆

Channeling the chill of the grave, make a melee spell attack against a target within reach. On a hit, the target takes 1d10 Necrotic damage, and it can't regain Hit Points until the end of your next turn.

BURNING HANDS ◆

1st-level Evocation

Casting Time: Action

Duration: Instantaneous

Range: Self

Components: V, S

A thin sheet of flames shoots forth from you. Each creature in a 15-foot Cone makes a Dexterity saving throw, taking 3d6 Fire damage on a failed save or half as much damage on a successful one. Flammable objects in the Cone that aren't being worn or carried start burning.

At Higher Levels:

The damage increases by 1d6 for each spell slot level above 1.

CHARM PERSON ◆

1st-level Enchantment

Casting Time: Action

Duration: 1 hour

Range: 30 feet

Components: V, S

One Humanoid you can see within range makes a Wisdom saving throw. It does so with Advantage if you or your allies are fighting it. On a failed save, the target has the Charmed condition until the spell ends or until you or your allies damage it. The Charmed creature is Friendly to you. When the spell ends, the target knows it was Charmed by you.

At Higher Levels:

You can target one additional creature for each spell slot level above 1.

CHROMATIC ORB ◆

1st-level Evocation

Casting Time: Action

Duration: Instantaneous

Range: 90 feet

Components: V, S, M (a diamond worth 50+ GP)

You hurl an orb of energy at a target within range. Choose Acid, Cold, Fire, Lightning, Poison, or Thunder for the type of orb you create, and then make a ranged spell attack against the target. On a hit, the target takes 3d8 damage of the chosen type. If you roll the same number on two or more of the d8s, the orb leaps to a different target of your choice within 30 feet of the target. Make an attack roll against the new target, and make a new damage roll. The orb can't leap again unless you cast the spell with a level 2+ spell slot.

At Higher Levels:

The damage increases by 1d8 for each spell slot level above 1. The orb can leap a maximum number of times equal to the level of the slot expended, and a creature can be targeted only once by each casting of this spell.
